Disposable income

Weaknesses

- Large outflow of employed resid associated spending on health of Merri-bek
- · Competitive pressure from near • Limited land supply for health a care facilities

When I first moved to Brunswick West from Adelaide, I chose this location because of its multicultural and diverse array of people, food and culture that gives the area a unique vibe.

It is a great location because everything you need is within either walking distance or a short bike ride. The public transport is also great in Brunswick West with easy access to either a bus, tram or train'.
